Description: What needs to be done? (U) Request **Second Set of INITIAL REVIEW'S** of a FOIA request by John Greenwald for "NRO Memorandums of Understanding & Comity Agreements, dated from 25 June 2009 through 13 September 2012."

(U) Please review specified MOU's for your element's equities. Please see list below for D/O's review breakdown:

MOU(#) and D/O (tasked for review)

- 09-4398 
- 11-4483 
- 22-4704 
- 27-4557 
- 28-4869

(U) In performing the review for your element's equities, please remember that the FOIA requires a line-by-line review, and that reasonably segregable non-sensitive portions of documents marked as classified or FOUO should be released. Keep in mind that, in many cases, simply deleting entire paragraphs or sections of a document because they include sensitive information is not necessary, and does not constitute a proper treatment for release.

(U) A path/link to the responsive MOU's is provided below:

[Redacted box]

(b)(3)

Please note: A copy of the clean MOU is located in the folder labeled **Clean Copy-MOU's**. Please place all treated MOU's in the folder labeled **D&O's Treated MOU's**

Description: What needs to be done? (U) Request **INITIAL REVIEW** of a FOIA request by John Greenwald for "**NRO Memorandums of Understanding & Comity Agreements**, dated from 25 June 2009 through 13 September 2012."

(U) These documents were located by the Office of Policy & Strategy. Please review the specific documents for your element's equities (**path/link to the documents follows**). **These documents have been placed in specific D/O's folders for initial review of your elements equities.** NOTE: Only review the MOU's, located in your D/O's folder.

(U) Should you find sensitive information that you feel should be withheld from release, please mark that information clearly, and provide the IART with an explanation of the harm in release for each instance in which information is marked for withholding.

(U) In performing the review for your element's equities, please remember that the FOIA requires a line-by-line review, and that reasonably segregable non-sensitive portions of documents marked as classified or FOUO should be released. Keep in mind that, in many cases, simply deleting entire paragraphs or sections of a document because they include sensitive information is not necessary, and does not constitute a proper treatment for release.

What needs to be done? (U) Request **Second Set of INITIAL REVIEW'S** of a FOIA request by John Greenwald for "NRO Memorandums of Understanding & Comity Agreements, dated from 25 June 2009 through 13 September 2012." Please review the attached document for [redacted] equities and return to me by 18 January 2013. If there is (b)(3) another directorate that should review this report please let me know.

(U) In performing the review for your [redacted] equities, please remember that the FOIA requires a **line-by-line** rev (b)(3) and that reasonably segregable non-sensitive portions of documents marked as UNCLASSIFIED or FOUO should be released. Keep in mind that, in many cases, simply deleting entire paragraphs or sections of a document because they include sensitive information is not necessary, and does not constitute a proper treatment for release. I have included the case worksheet for the exemptions section...no accountability of time is required.

Why it needs to be done? FOIA, 5 U.S.C. § 522 as amended.

Thank you.

[Redacted] --- UNCLASSIFIED//~~FOUO~~

Classification: UNCLASSIFIED//~~FOUO~~

(U) The Information Review and Release Group (IRRG), formerly Information Access and Release Team (IART), in the OCIO, is responsible for administering the NRO's review and release programs (FOIA, Privacy, Prepublication Review and Mandatory Declassification Review) in accordance with law and federal regulation. These actions are time sensitive and can result in legal penalties.

(U) Last year, with the support of the Director's Action Staff, the IRRG began using TIER. The Corporate Communications Group requested that each Directorate be allowed to set up a tracker group specifically for this purpose because of the volume.
