Hello [redacted] (b)(3)

(U) OIG completed an initial review for their own equities before these documents were distributed for further review. The particular information that was apparently segregated in a sub-tasking for [redacted] The original (b)(3) CIO-IMSO-FOIA Tier Action went out to many, many components because OIG doesn't really "own" the information discussed in their documents.

(U) You are not being asked to declassify. You are being asked to review the information and specifically identify any sensitive information pertaining to your own component that needs to be withheld from release. Valid reason for denial of information is always tied to "harm in release." If release of information will not negatively impact your own component's operations, there is no legitimate legal reason to withhold it.

(U) Hope this helps.

Hello...I'm working the below Tier, reason I'm coming to you is because CIO Tracker is the lead...we're asked to review page 14 of the OIG Semiannual Report to Congress declassify it however we weren't the author nor is it our document to declassify. Shouldn't the OIG be reviewing/declassifying it.

(U) See TIER Action below (text highlighted yellow) and attached that is due by COB Friday 10 May. Description: ~~What needs to be done?~~

(U//FOUO) NRO Component-level reviews of four NRO OIG Semi-Annual Reports to Congress, provided by OIG in response to a FOIA records search.

(U) By their nature, the responsive documents encompass a broad range of information about NRO operations and programs, which requires a similarly-broad review process. The IRRG requests that *each tasked component provide a review for it's own sensitive information*. For each instance in which information is marked for denial, the IRRG requests that you provide a brief explanation of why that information needs to be withheld (why would release be potentially harmful to your component's

operations, functions, and mission.) The IRRG needs this information to effectively apply FOIA exemptions to the documents.

(U) Inputs w/regard to recommendations for other component/other agency reviews are welcome; however, we request that inputs provided regarding equities outside the scope of your own component's mission and function be clearly indicated as such.

Why it needs to be done? FOIA

(U) ALL: The following attachments need to be released at the UNCLASSIFIED level to the public. In order to help in reviewing these, [redacted] have been highlighted in YELLOW throughout the entire document to include the appendices. Please review those sections applying to you LINE BY LINE and mark all information that is not to be released providing a brief explanation of why that information needs to be withheld (why would release be potentially harmful to your component's operations, functions, and mission.) Do not assume paragraphs marked as "(U)" are automatically releasable. Mark that they have been reviewed and no problem with their release (that way we can account for all items pertaining to [redacted] has been reviewed). Also, "(U//FOUO)" paragraphs need to identify that information not releasable with explanation. (b)(3)

Comments: 05/02/2013 12:36 -- Added [redacted] comment above. -- Submitted by: [redacted] (b)(3)

05/02/2013 12:33 -- [redacted] please review page 14 of the attached IG Report to Congress referencing the "Audit of the NRO [redacted] Program." Our task is to identify the information in the third paragraph that makes it S//NF and provide a brief explanation of why that information needs to be withheld (why would release be potentially harmful to your component's operations, functions, and mission.). I just wanted to let you know we are in receipt of this consultation. We are working to clear as many of your consults as we can, along with all the other stuff for the end of the year. I had to have some documents reviewed a second time which has delayed our responses, but we will do our best to close as many of these as we can. I will advise you of the NGA number assigned to it next week.

Have a great weekend!

(U//~~FOUO~~) Response to case 74487 was placed in our outgoing mail on 21 April. It should have left the NSA campus NLT 25 April so I expect you'll see that one soon. If not, let us know and we will check to see if we received the sign transmittal form from NRO. I've pulled 70374, 70327, and 70013 and will move them along. We'll shoot you an email when they are mailed out. No change in the ECD for the remaining cases. Regards - [redacted]

In December, you provided NSA's estimated completion dates for the consults in NRO's 10 oldest cases. As recently as March, you estimated some of these cases (highlighted in yellow) would be completed in April. Since we have not yet received NSA's response on these cases, would you please provide us an updated, estimated completion date (ECD)?

As you are aware, both ODNI and DOD have recently issued guidance about maintaining separate consult queues so that consult cases (especially those consults that remain in the sending agency's 10 oldest list) do not stagnate in a large backlog of requests.

We look forward to receiving your responses on these cases.

Thanks,
