**FYI:**

**Description:** **What needs to be done?** (U) NRO is in receipt of a FOIA request for oaths, pledges, etc., made to POTUS by members of the NRO Leadership Team (as defined on NRO.gov), the NRO Inspector General, and/or the leadership team's senior staff. A copy of the request is attached to this action to provide complete details on this request.

### Why it needs to be done?

(U) FOIA requires agencies to perform a search for records/information in response to any 'perfected' request for records. This case qualifies as a 'perfected' request and has been accepted for processing by Chief, IRRG. To comply with the law and avoid potential litigation, IRRG must administer a search for records in any component in which records, if they exist, could reasonably be expected to be located. The content of the request letter clearly specifies which components IRRG must include in the search for records, and includes details on the full scope of the request. (U) IRRG must document the search and all responses as part of the NRO official record of the processing of this request. If your component has no responsive records, please provide a response indicating that no responsive records exist in your component. In the event that you do locate potentially responsive information, please provide complete clean copies of those documents for review and release determination. IRRG will administer a separate action for document review and sanitization if any responsive information is located.
