WASHINGTON, D.C.

February 9, 1990

OFFICE OF THE DIRECTOR

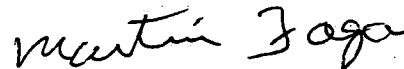

NOTE FOR MR. WOLFOWITZ

I just wanted to provide additional detail on our "Arms Control Briefing" to you on Tuesday, 13 February.

Our intent is to present National Reconnaissance Office (NRO) concerns and recommendations on START Suspect Site Inspection (SSI) issues now being addressed by the DOD SSI Impact Task Force (SITF), which you chair.

While we have been involved in the SITF Steering and Working Groups, security considerations preclude the fullest possible discussion and consideration of NRO equities and recommendations within those fora. Thus, our desire to present our concerns and recommendations directly to you. If you deem it appropriate to invite them, Deputy Under Secretary Craig Alderman and Assistant Secretary Steve Hadley also have the requisite clearances to attend the briefing.

I look forward to seeing you on Tuesday. Please contact me directly if you have any questions beforehand.

Martin C. Faga
