[Redacted] Patty,

(b)(3)

The OIP DOJ contact who returned my call stated that there is no set date or timeframe (I even asked for a rough estimate) for a final policy on the "release to one, release to all" implementation as they are still evaluating the comments they received on the draft. They directed our attention to the 2017 CFO report that showed other agencies already implementing the change as a best practice (attached – reference pages 20 and 26).

If there are other, more specific questions), she directed us to call the hotline [Redacted] and ask to speak with [Redacted] [Redacted] on the Compliance Team.
