MEMORANDUM FOR THE NRP EXECUTIVE COMMITTEE

SUBJECT: Adequacy of the CORONA/HEXAGON Overlap

The HEXAGON Review Committee, chaired by Bob Naka, has conducted two reviews of the HEXAGON Program since the report to the Executive Committee on June 20, 1969. Both times the Review Committee has concluded that no new order for CORONAs should be placed. Their reports of November 4, 1969 and January 22, 1970 as well as Bob's memorandum to me are attached for your information. I believe we should accept their recommendation that there be no additional purchases of CORONA systems, and I will appreciate your concurrence.

John L. McLucas
