MEMORANDUM FOR DR. McMILLAN

John Bross called today on behalf of Admiral Raborn with respect to funding of FULCRUM activities for the month of May. I told him that I would agree to a minimum sustaining basis for that month but wanted to wind the matter up by May 30th. I told him I would leave it up to him to work out the details for a minimum sustaining basis and would accept his determination that it had been done on that basis.
