11 MAY 1964

MEMORANDUM FOR DR. ALBERT WHEELON, DDS&T

On 23 March 1964, I requested a resume of any DDS&T in-house studies and investigations, and contract work pertaining or applicable to the (TS) National Reconnaissance Program or its objectives. On 18 April 1964, General Carter, writing in your behalf, endorsed the opportunity to conduct this resume and suggested that we enlarge the subject matter coverage to include anticipated contractual support to be performed by Director, Program B.

In view of the impending FY 65 budget decisions, we should review the inventory of your various projects as well as an indication of the contractual workload within the next two weeks. May we set an exact date during the week of 25 May.

Signed

Brockway McMillan
Director
