

March 23, 1964

Dear Bud,

In preparation for the programming for Fiscal Year 1965, we are in the process of completing an inventory of all advanced planning of all projects within the NRP. We must be in a position to insure the comprehensive integration of all applicable work and capabilities of the several agencies which support the NRO in the conduct of the NRP. In this connection, I would appreciate a resume of any DDC&T in-house studies and investigations, and contract work, pertaining or applicable to the (TS) National Reconnaissance Program or its objectives. Such a resume should include a brief description of the work, its current status, costs and schedule.

It would be very much appreciated if this information could be provided by the 6th of April. I suggest that we arrange to discuss the inventory of the various projects underway sometime during the week of 6 April.

Sincerely,

Ernest W. McMillan
Director
(S) National Reconnaissance Office

Dr. Albert D. Whaelon
Deputy Director, Science & Technology
Central Intelligence Agency
