... presentation

Attached for your review is a copy of the NRP Annex to the Space Task Group Report which was transmitted to the President by Mr. Laird on August 13, 1969 (Tab A). A subsequent review of the Annex by all five members of the 303 Committee resulted in its approval being suggested to the President by Dr. Kissinger with the further recommendation that it not be further disseminated, even to the principals of the Vice President's Space Task Group (see Tab B). The President confirmed the objectives of the Annex in what we consider a very strong indorsement for the continuation of our Program (see Tab C). The President also approved Dr. Kissinger's recommendation that the Annex not be further disseminated.

I would appreciate it if, following your review, you would return this copy for our file.
