OFFICE OF THE UNDER SECRETARY

MEMORANDUM

April 21, 1965

C9 -
Rumors indicate that CIA is making full preparations for an early move of the Satellite Operations Center to Langley.

This of course remains a relatively harmless and internal game at the moment.

Issues will come into the open, however, on or about 1 May.

Financial plans for FY66 are due on that date. The CIA plan will call for full funding of CORONA through the CIA, as well as, of course, the development of a new ~~system.~~
