21 May 1958

MEMORANDUM FOR RECORD

SUBJECT: Additional FY 1958 Funds for WS-315A and WS-117L

1. The following is a synopsis of a telephone call incoming from Mr. Lou Meyer, AFABF, to Colonel Summers, WDC.

2. References are TWX WDCB-5-5-E and TWX WDP-5-2-E. These messages stated additional urgent FY 1958 requirements for Weapon Systems 315A and 117L.

3. Mr. Meyer stated:

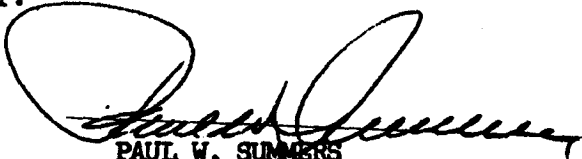

a. Hq USAF TWX 51056 was dispatched on 20 May which essentially gave a "go ahead" on coverage of the price increases stated in the referenced messages. This TWX has not yet been received.

b. Hq USAF will issue Procurement Authorizations this date to Hq AMC for subsequent issuance to AFBMD.

c. Hq AMC will be instructed to allot required funds for both programs.

d. The level of FY 1958 plus FY 1959 fund programs has not been increased, therefore this addition of FY 1958 funds has the effect of reducing the current USAF stated FY 1959 ceilings for these two programs.

4. Comments. Appropriate action will be taken upon receipt of the USAF message. It is probable that AFBMD will be unable to actually commit and obligate funds prior to receipt of specific authorization from Hq AMC. It is anticipated, however, that the TWX will contain sufficient authorization to prevent any delay on the part of the contractor.

PAUL W. SUMMERS
Colonel, USAF
Comptroller
