SAMOS, MIDAS and DISCOVERER Research and Development Programs and Development/Operational Plans for SAMOS and MIDAS

ARDC      SAC      AMO  
AFSSD      ADC

1. The subject programs were formally proposed to the Secretary of Defense on 18 February 1960 and the following approval and guidance concerning the Development Plans was provided by letter, dated 20 April 1960, from DEB&E to Secretary of the Air Force. The Development/Operational Plans are still being reviewed and guidance will be provided later by separate action.
2. The Research and Development Programs were submitted on the basis of fund availability of \$262.4 million in FY 1960. The revised fundings; i.e., \$238.0 million FY 1960 used herein are for program guidance purposes and actual funding will be determined through fiscal channels.
3. The MIDAS R&D program estimated at \$31.9 million for FY 1960 and is approved in principle with authority to implement the MIDAS program in accordance with the objectives of the essential R&D Program, dated 15 January 1960.
4. The DISCOVERER R&D Program is extended by six additional vehicles and ARDC will prepare a revised plan reflecting this extension. Fund allocations are for FY 1960 for FY 1961. The FY 1961 amount is contingent upon the submission and approval of the revised plan.
5. The SAMOS R&D Program must be further adjusted. ARDC is authorized to proceed on an interim basis within funding availability of \$160.0 million for FY 1960 and planning estimate of . It is directed that current effort assure that available resources be applied so as to fully achieve the R&D objectives, including schedule, in order of priority accepting slippages as necessary in lower priority items. The priority established for the R&D program provides for emphasizing photographic payloads over search, and within the photographic, recovery over readout. The adjustments required is to be accomplished within the search area and recommended program adjustments are to be forwarded to Hq USAF for review and further approval by OSD (RAE).
