5 October 1962

MEMORANDUM FOR: Director, National Reconnaissance Office

SUBJECT: Modification of Next TAKI Package

1. It is requested that the next TAKI package be modified in a like manner to that of TAKI II which was launched on 29 April 1962. This modification consists of limiting the TAKI coverage to the TALL KING frequency, thus making it a specific instrument for sampling the TALL KING environment.

2. If there are any technical questions, Harold Willis of my staff, extension 6941, will be glad to discuss them with your representatives.

HERBERT SCOVILLE, Jr.
Deputy Director
(Research)
