MEMORANDUM FOR RECORD

SUBJECT: Handling of MOL Security Review Matters

On 5 April, I met with Mr. Mazza and Major Cohen to renegotiate a procedure for handling MOL portions of documents forwarded to SAFSS for security review.

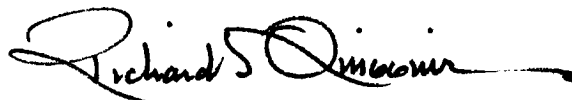

Major Cohen was concerned that his signing off SAFSS actions might be a breach of security (i. e. , too direct a connection between SAFSL and SAFSS).

It was agreed that:

1. Major Cohen will accept action, coordinate, and sign off items dealing only with MOL, which are sent to SAFSS for security review.

2. On items dealing with MOL, and other matters, Major Cohen will review and recommend action on MOL portions. Colonel Quiggins will consolidate comments on such (dual content) documents and will sign off actions for SAFSS.

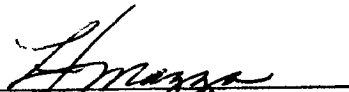

NOTE: Colonel Quiggins will review all SAFSS security review correspondence first and indicate whether action should be completed in accord with paragraph 1 or paragraph 2, above. To permit a means of accounting for documents, all papers forwarded to SAFSS, involving MOL, which are accepted by Major Cohen for action will be returned to SAFSS upon completion.
