

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION  
WASHINGTON, D.C. 20546

MAY 25 1971

REPLY TO  
ATTN OF:

Mr. F. Robert Naka  
Deputy Under Secretary (Space Systems)  
Department of the Air Force  
Washington, D. C. 20330

Subject: MOL Mission Development Simulator Computers

Reference is made to your memorandum of March 17 in which you requested return of the subject computers. I understand that the requested equipment includes an IBM model 360/44, an SDS model 930, a Beckman model 2200, an EAI model TR 48N, and other associated peripheral and ancillary equipment now attached to Goddard Space Flight Center facilities contract NAS 5-3793(F) at General Electric, Valley Forge, Pennsylvania.

By copy of this letter I am instructing Mrs. Carolyn Lane, contracting officer at Goddard Space Flight Center, to effect return of the IBM model 360/44 in accordance with instructions received from Lt. Col. Hofman. Since we are currently re-examining our need for the simulator, and I understand you have no immediate requirement for the other computers, I wish to reserve consideration of them until this re-examination is completed near the end of June.

A handwritten signature in dark ink, appearing to read "P. E. Culbertson".

Philip E. Culbertson  
Director  
Advanced Missions Program  
Office of Manned Space Flight
